ADAIR COUNTY
SCHOOLS

July 28, 2020

Dear Adair County parents, guardians and community,

Schools are getting a number of inquiries regarding needed school supplies for your students. I have what I feel is great news! Because the district has been awarded CARES funding, school supplies will be provided for all students in the district for the 2020-21 year.

You may have already seen that devices (iPads and Chromebooks) will be provided for every student, but I am pleased to tell you we can also provide the other supplies needed. The only cost to any parent or guardian will be a \$15.00 insurance fee should you desire to have your child bring a device home. Procedures for getting a device will be forthcoming.

Supplies will be purchased in accordance with the health and safety guidelines outlined in guidance from state and local health departments and the CDC and distributed once the school year begins. Individual schools will be sharing their policies on backpacks and water bottles in the very near future. Neither of these items will be a requirement. The best place to get this information is on each school's webpage or on their social media outlets.

Sincerely,

A handwritten signature in blue ink, which appears to read 'Dr. Pamela Stephens', is written over a faint, larger version of the signature.

Dr. Pamela Stephens,
Superintendent
Adair County Schools
